a CID Consulting Company

Website Content — Phase 1: Landing Page

September 2026 | Confidential | Internal Use

How to read this document

Grey "NAV LABEL" lines are navigation menu text only. They do not appear as headings within the section itself, and should not be confused with the section's on-page heading.

Large underlined headings in navy are the exact on-page section headings, word for word.

A dashed grey heading in all caps (such as "Persistent Navigation" below) is a label for this document only. It is not on-page content and will not appear on the site.

Smaller bold labels directly above a line of copy (card titles, step names, team member names) are real on-page micro-headings and will appear exactly as written.

Plain paragraphs with no label above them are body copy, to be used exactly as written, with no heading.

Shaded boxes marked "PLACEHOLDER" are instructions for the agency, not content, and must be replaced with real assets or details before launch.

"Spec" lines (e.g. "Primary CTA button label: ...") describe a structural element such as a button or link, not a heading or paragraph.

PERSISTENT NAVIGATION

This heading is for document organization only and is not on-page content. Structural spec, appears on every scroll position, no heading of its own on the page.

Identity: Talin logo/wordmark.

Anchor links (in order): About | What We Do | How We Work | Leadership | Contact

Primary CTA button label: Get in Touch (links to the Contact section)

NAV LABEL: (none — hero has no anchor link)

This section has no separate section heading. The tagline below is the on-page heading itself, set in large hero type.

Tagline (on-page hero heading)

Human-Led Intelligence.

Value proposition (hero subheading)

We turn technology investment into measurable, sustainable growth by aligning strategy, technology, and people around real business value.

Primary CTA button label: Get in Touch

NAV LABEL: About

Why Talin Exists

Two labeled statements (Vision, Mission) and two closing paragraphs.

Vision

To become the trusted advisor for data, AI, business intelligence, and digital transformation across Egypt and the region, delivering measurable, ethical, and human-centered value.

Mission

To close the gap between technology ambition and business results, so that every investment in data, AI, and digital transformation creates value leadership can see, measure, and build on.

Six core values guide how we work: human-centricity, foresight, intelligence, partnership, responsibility, and business value.

Three commitments define what every client can expect: measurable impact, business value, and sustainable growth.

Talin builds on more than three decades of CID Consulting's management-consulting heritage, bringing deep change management and organizational expertise to every technology transformation.

NAV LABEL: What We Do

Intelligence in Action

Opening paragraph, no heading, followed by six service cards. Each card's bold title is a real on-page micro-heading; the line beneath it is that card's body copy.

We work in two connected modes. Advisory helps organizations define direction, strategy, and readiness. Delivery builds, implements, and embeds the solutions that advisory defines.

Digital Strategy & Transformation

Clear digital priorities aligned to business strategy.

Data & Analytics

Strategy, architecture, governance, and business intelligence, end to end.

AI Strategy & Agentic AI

Practical, business-driven AI adoption, from strategy through autonomous agents and automation.

Technology & Solution Advisory

Selecting the right platforms and technology for business goals, independent of any single vendor.

People, Change & Capacity Building

Preparing people, not just systems, for transformation.

Governance & Value Realization

Clear governance, KPIs, and execution discipline that keep transformation accountable.

NAV LABEL: How We Work

How We Partner

Two opening paragraphs, followed by five engagement steps. Each step's bold title is a real on-page micro-heading; the line beneath it is that step's body copy.

Business-First Philosophy

We start with the business problem, not the technology. Every engagement is judged by the business value it creates, not the sophistication of the tools involved.

Tech-Agnostic Stance

We recommend what is right for the business, not what is easiest for us to sell. Our recommendations are independent of any single vendor or platform.

Engagement Flow

1. **Discovery.** Understand the goal, the audience, and the constraints.
2. **Roadmap.** Align on direction, priorities, and what success looks like.
3. **Build.** Design, build, and test the solution.
4. **Adopt.** Support the people and processes that make it stick.
5. **Sustain.** Monitor, improve, and scale what works.

NAV LABEL: Leadership

The Minds Behind Talin

Each team member's name is a real on-page micro-heading, followed by their role, then their bio as body copy.

Ahmed Salama

Founder & CEO

Ahmed Salama is the Founder and CEO of Talin. He brings more than 25 years of technology leadership, most recently as Regional Director for AI Business Solutions at Microsoft. He is an Adjunct Professor of Practice at the American University in Cairo's School of Business, and partners directly with C-suite leaders to ensure technology investments deliver real commercial value.

PLACEHOLDER — professional photo of Ahmed Salama to be supplied

Dalia Wahba

Co-Founder

Dalia Wahba is Co-Founder of Talin and Chairperson of CID Consulting. She brings a track record of designing high-impact marketing, public-private partnership, and organizational-transformation initiatives for global institutions, including roles on AmCham Egypt's Board of Governors and the American University in Cairo School of Business Dean's Strategic Advisory Board.

NAV LABEL: Contact

Let's Talk

Opening line is body copy, no heading. The items below it are structural fields (form, links, footer), not paragraphs, and are listed as specs.

Tell us what you are working on, and we will tell you how we can help.

Primary CTA button label: Get in Touch

PLACEHOLDER — contact form fields or direct email address (e.g. hello@talin.com) — confirm final address before launch

PLACEHOLDER — Cairo office reference — confirm exact address.

PLACEHOLDER — LinkedIn URL — Talin company page

PLACEHOLDER — LinkedIn URL — Ahmed Salama personal profile

PLACEHOLDER — LinkedIn URL — Dalia Wahba personal profile
